ATMOS Twin Record 55

**The powerful  
surgical suction  
device for large  
amounts of liquid**

---

*Exactly  
what  
I need*

---

# Twin Record 55

Space-saving, powerful, quiet.  
Two surgical suction systems in one housing.

With the ATMOS Twin Record 55, not only can the surgical site be suctioned off, thereby giving the surgeon a clear view, but liquids can also be removed from the floor.

## Maximum flexibility

### THANKS TO VERSATILE APPLICATION POSSIBILITIES

The two surgical suction devices can be used flexibly depending on the requirements. The two separate pumps can be used individually or simultaneously, each with different target vacuum values. A lower vacuum level for the surgical site to protect tissue, for example, and a higher vacuum for suctioning the floor are possible.

## High level of safety

### THANKS TO CONTINUOUS SUCTION

Rapid vacuum build-up, high vacuum and high suction capacity not only guarantee a clear view of the surgical site at all times, but also enable liquids to be suctioned from the floor in order to minimise the risk of injury to staff.

## Ready for immediate use

### THANKS TO INTUITIVE, FAST OPERATION

The individually adjustable vacuum, the clearly visible vacuum gauge and the optimal working height for the user make it easier to use, even in stressful situations.

## Optimal hygiene

### THANKS TO SMOOTH SURFACES

The ATMOS Twin Record 55 is particularly easy and quick to clean, as additional corners and edges on the housing have been dispensed with in favour of smooth surfaces. The modern secretion canister system and the hydrophobic bacterial and viral filter protect both staff and patient.

## TWIN RECORD 55 – TECHNICAL DATA

**ATMOS  
Twin Record 55  
DDS**

**ATMOS  
Twin Record 55  
with standard rail**

Order number	443.0950.0	443.0960.0
Total suction capacity	110 l/min ± 6 l/min	
Suction capacity of each pump	55 l/min ± 3 l/min	
Max. vacuum	-98 kPa per pump (-980 mbar oder -735 mmHg)	
Noise level	43.9 dB (A) at the final vacuum	
Dimensions	910 x 540 x 440 mm (H x W x D)	
Weight	30.4 kg (without secretion canister)	
Voltage	230 V~ ± 10%; 50/60 Hz	
Operating mode	Continuous operation	
Secretion canister	DDS (1.5 l; 3 l; 5 l)	disposable (1 l; 2 l; 3 l)  reusable (1 l; 2.5 l; 3 l; 4 l; 5 l)
